Dear Sir:

31 Oct 66 McKees  
Rocks, Pa.

I want to write you about an object I had seen twice, on Oct. 21, 1966, at about 2 P.M., and again at 2:20 P.M.

It was a clear, and sunny day. This occurred about 10 to 12 miles east of Greater Pittsburgh Airport. I can not say if object made any sound for each time the object appeared there was an craft in the air.

At size I am going to compare it with a aircraft which appeared 5 minutes or less before the object appeared, for the second time.

Five minutes before the object appeared a Pa Flat Air Craft appeared at about 10,000 - 12,000 FT.

object going south.

at 2:00 P.M.

object appeared  
very bright.  
white and went down to the right  
to just before sun set.

This lasted about 7-10 seconds, as far  
as I can say for this time or after  
object disappeared there was a jet and  
Copter, that I could hear but did not  
see.

at about 2:15 P.M. I was standing in  
my back yard and felt that the  
object may appear, I heard a jet com-  
ming over it was this delta wing  
fighter was heading south, at 2:20  
P.M. I heard another jet load up  
and seen this object again at nine  
time this T-33 jet train as appeared

Page 16

This was about 2:15 P.M., 2+2 1/20  
P.M., this object appeared at about  
same height. Its size which I  
compare with the aircraft, "P.A.N.G.",  
a delta wing fighter, about like  
this ill. 

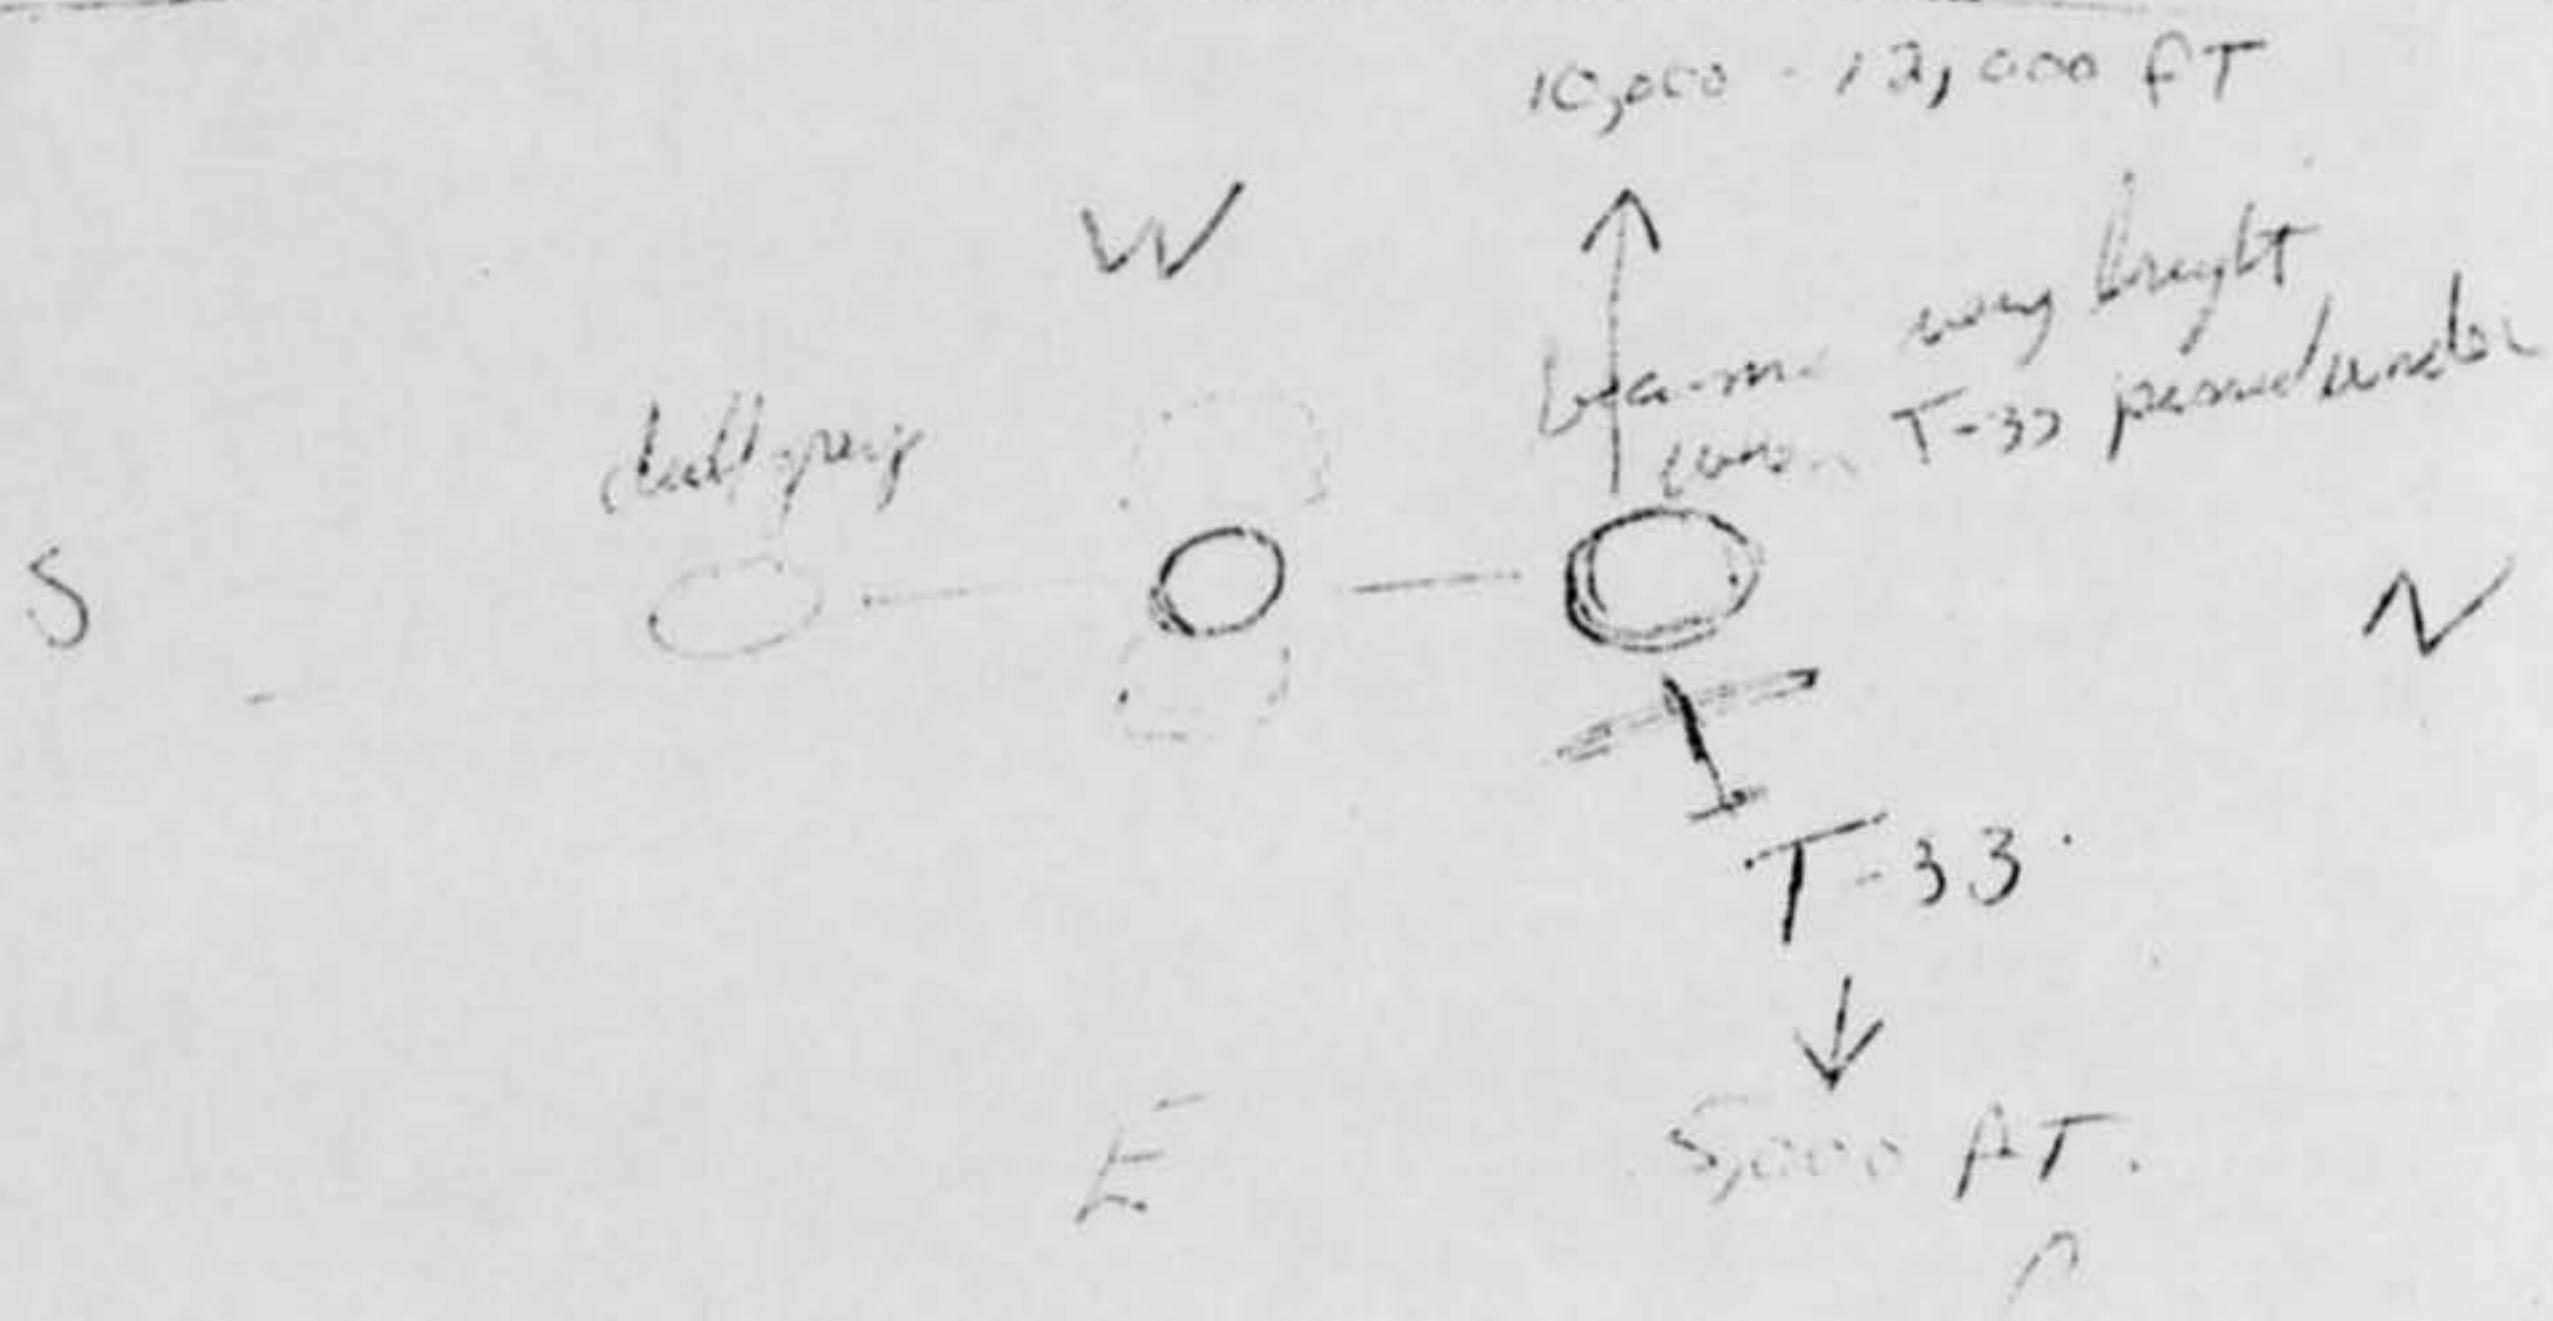

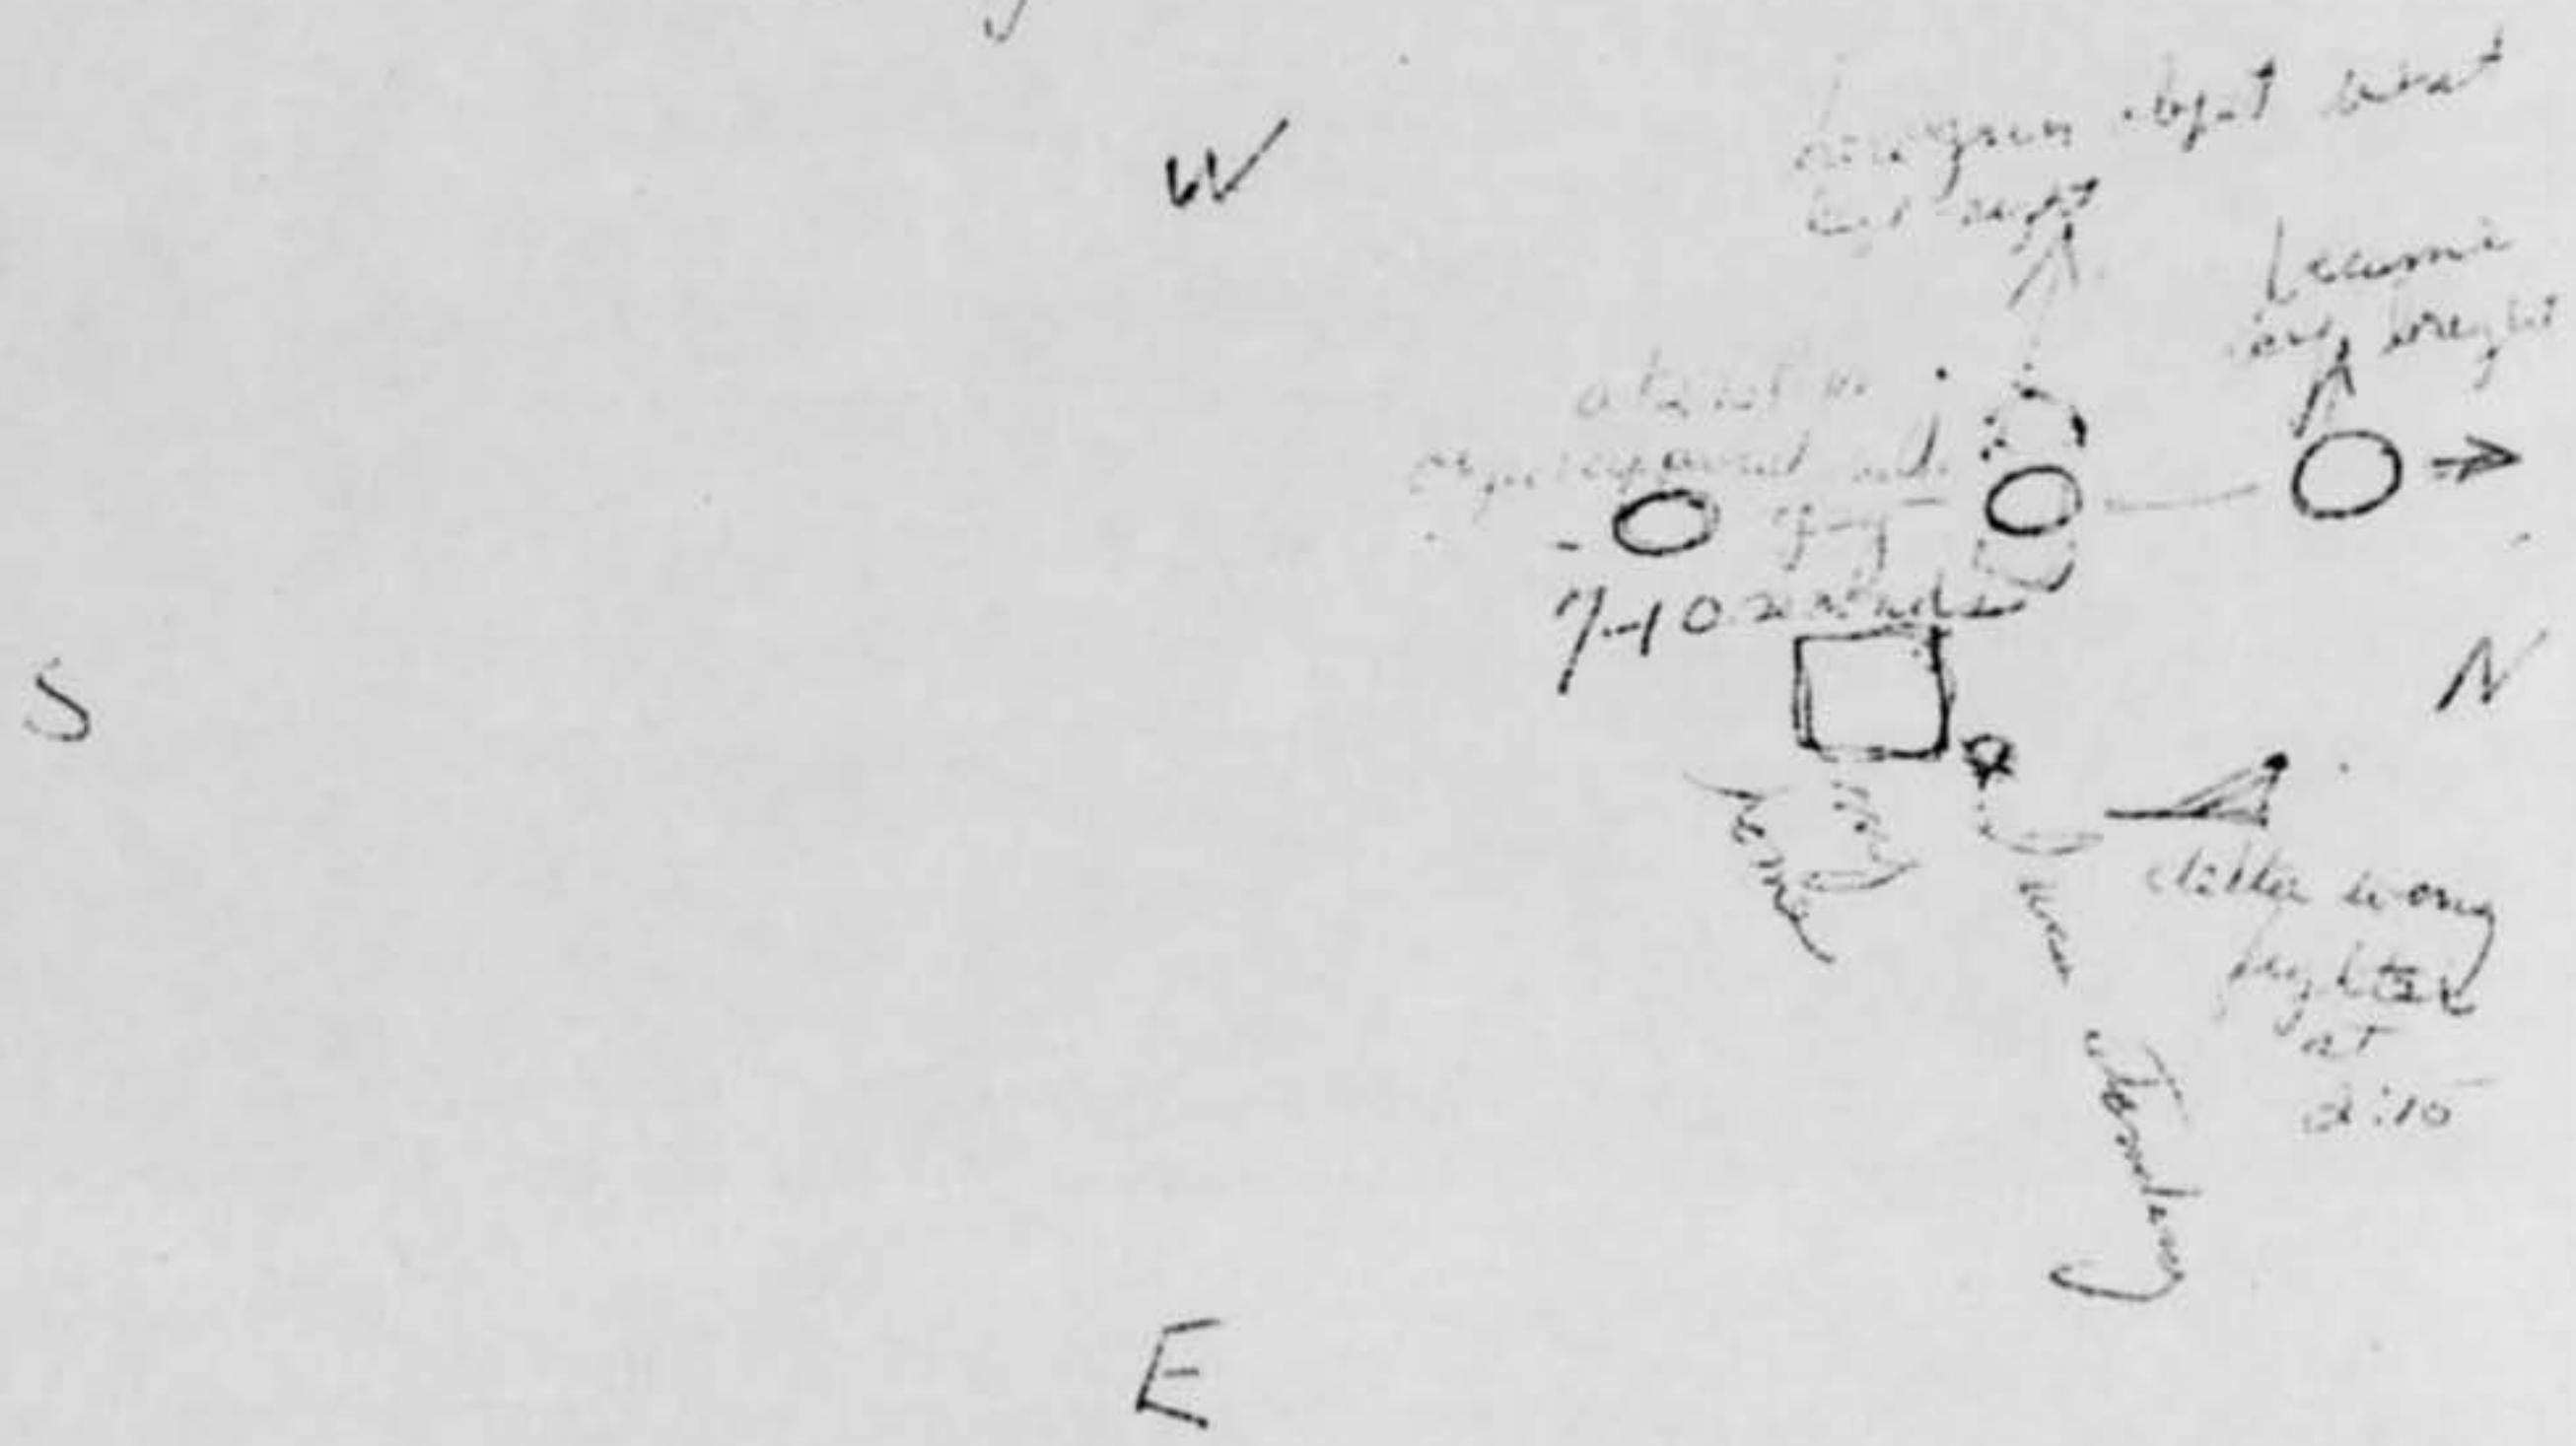

Color at first appeared to be dull  
grey, and became a very bright white.

First time it appeared I was parked  
in a supper market lot waiting for  
my wife, something caught my eye  
and I can't say what it was but  
what I saw held my attention. It  
appeared round, a slight upon the ~~sky~~  
very faint, for 3-4 seconds it was  
grey it seemed to shift left to right  
became a bright white and disappeared

at about 5,000 ft having west towards airport. When T-33 appeared to pass under this object it became very bright and just disappeared.

III. Object going north.

When object appeared second time it  
passed right over me, it appeared round  
flat bottom.

Something about my self.

I witnessed weather balloon, the  
planet venus in the day light, a blimp,  
and other object, but nothing like this.  
Thank you and I hope this in-  
formation can help you.
